ACTIVE INGREDIENT
Bispribac Sodium 10%

FORMULATION
Suspension Concentrate (SC)

CROPS
Rice

PACKAGING
200 ml
100 ml
80 ml

BASCO™

BASCO™ is a broad spectrum post emergent herbicide - it effectively controls grasses, sedges and broad leaf weeds infesting rice crop both in nursery and main field.

BASCO™ requires very low dose to attain highly satisfactory and consistent results.
