ACTIVE INGREDIENT
Fenobucarb (BPMC) 20% & Buprofezin 5%

FORMULATION
Suspo-Emulsion (SE)

CROPS
Paddy

PACKAGING
1 litre
500 ml
250 ml

HIP-HOP™

HIP-HOP™ is a unique pre-mix of two active ingredients known to be effective for control of both Brown Plant Hopper and Green Leaf Hopper in paddy crops.

The dual mode of action of IGR and neurotoxic attacks the pest through control and stomach action.

HIP-HOP’s™ dual mode of action gives not only a better control and resistance management of the pest; but also acts quick and a long-lasting control.
